

SPM total-GDGTs

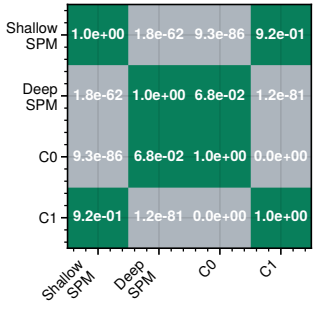

A CDFs of GDGT-2/-3

B Critical $D_{0.05}$ minus D_{max}

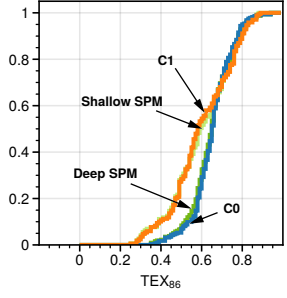

C P values

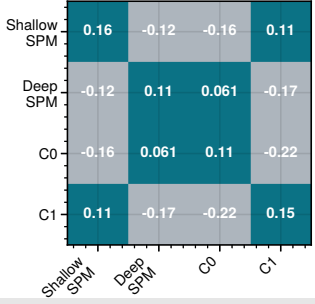

Cumulative Distribution Functions and Kolmogorov-Smirnov Statistics

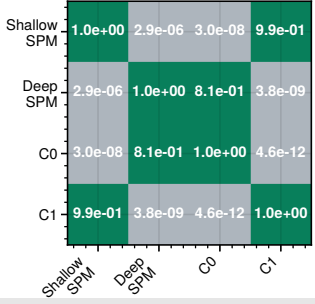

D CDFs of TEX_{86}

E Critical $D_{0.05}$ minus D_{max}

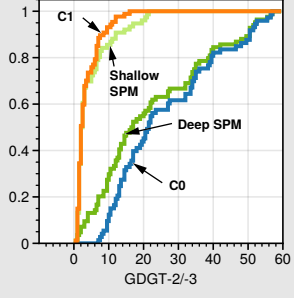

F P values

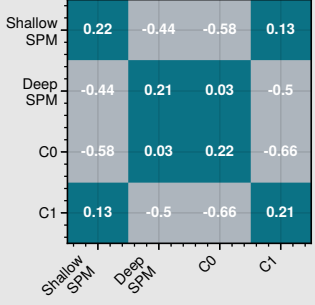

SPM IPL-GDGTs

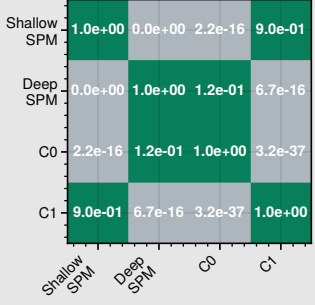

G CDFs of GDGT-2/-3

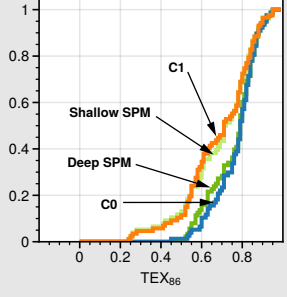

H Critical $D_{0.05}$ minus D_{max}

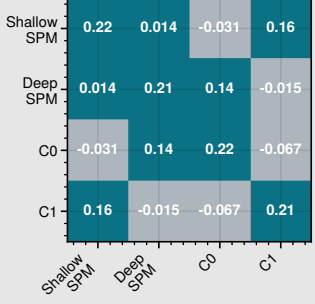

I P values

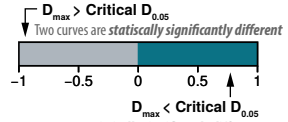

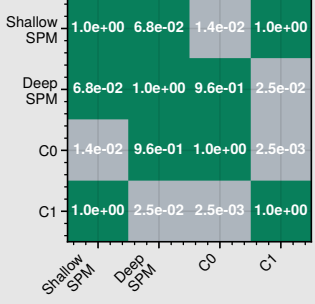

J CDFs of TEX_{86}

K Critical $D_{0.05}$ minus D_{max}

L P values

Two curves are *not* statistically significantly different
